Irving Park Road Improvements from Seymour Avenue to the Des Plaines River

CHICAGO – The Illinois Department of Transportation (IDOT) announced that daily and nightly lane closures will take place on Irving Park Road (Illinois 19) from Seymour Avenue to the Des Plaines River, in Schiller Park, beginning, weather permitting, the week of August 16. The closures are necessary for a resurfacing and sidewalk improvement project.

In order to complete the work, nighttime lane closures will take place on Irving Park Road between Seymour Avenue and Scott Avenue. Daytime lane closures will be utilized on the stretch of Irving Park Road between Scott Avenue and the Des Plaines River. The daytime closures will avoid peak travel times. Intermittent sidewalk closures also will take place along Irving Park Road as needed for sidewalk replacement.

The scope of the project includes resurfacing, pavement patching, and drainage improvements, as well curb and gutter replacement. The project also consists of removal and replacement of sidewalks and pedestrian ramps to make them compliant with the Americans with Disabilities Act (ADA).

The project is expected to be completed in Fall 2017.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
