

Project Notice!

Irving Park Road Construction Project Underway

Traffic Backups and Delays Possible!

A major Illinois Department of Transportation (“IDOT”) construction project on Irving Park has been underway for several weeks and is gearing up for the resurfacing phase in the next few weeks. The goal is for the project to be completed by late November (around the time of Thanksgiving).

While the project is underway there will be periods of time (during non-rush hour periods) where lanes on Irving Park Road will be closed and traffic will be backed up. During these difficult periods we are asking people that are using Irving Park Road to be patient and cautious so as to minimize risk of accidents.

While this is NOT a Village project and the contractor does not work for the Village, we want to help our residents and businesses deal with any problems that may be caused by the construction. If you experience a problem that you feel is unreasonable or unwarranted (or have any questions) please contact Brian Bursiek, Assistant Village Manager, at (847) 671-8534 to explain your concerns and he will relay to IDOT Personnel or a representative of the Contractor to try to rectify your concern. We will try to address your concerns quickly and effectively.

Thank you for your time and please stay safe while construction is underway.

Sincerely,

The Village of Schiller Park
