The U.S Environment Protection Agency states electronic waste is now the fastest growing segment of our nation's waste. Electronic waste, from computers to TVs, contain toxic materials such as lead, chromium, cadmium, mercury, beryllium, nickel, zinc, and other potentially harmful chemicals. The EPA warns when electronics that contain these materials are not recycled or are not disposed of properly; the hazardous chemicals can contaminate the ground water and present additional environmental concerns.

Flood Bros will provide collection services for up to six (6) electronic recyclables for \$30.00. Residents are asked to call our office 24 hours prior to collection to schedule pick up.

As an alternative, residents may drop off their electronics for FREE to the container behind the Public Works garage, in the Village Parking Lot.

State Ban

The State of Illinois electronic waste landfill ban is now a state law. Under this state law, electronic waste cannot be collected with household refuse/waste.

Contact Flood Brothers during business hours to schedule an e-waste collection.
