

PUBLIC NOTICE
OF CATEGORICAL EXCLUSION FOR PROJECT PLAN
REGARDING THE VILLAGE OF SCHILLER PARK
PUBLIC WATER SUPPLY LOAN PROJECT

The Village of Schiller Park intends to construct a water main improvement project and to finance the project with a loan from the Illinois Environmental Protection Agency (IEPA) Public Water Supply Loan Program.

The proposed water main Project No. L17-6275, “2022 Watermain Improvements” includes replacement of 12,700 feet of existing water mains with new DIP water mains, running new service pipes within the public right-of-way and reconnecting the new service pipes to the existing private services at the property lines. The existing Chicago Meter Vault in the south parkway of Irving Park Road will be replaced and have structural, electrical and SCADA improvements as well. Valves will be installed along the feeder main for better flood control. Should lead service lines be discovered at private residences during this project, they will be replaced. The project will be funded through a loan from the IEPA and the project cost is estimated to be \$7,800,000.00.

Due to the nature of the project, the IEPA has determined that the project can be excluded from a detailed environmental impacts review.

The project plan and the IEPA’s environmental impacts assessment are available for inspection at the office of the Village Clerk during regular business hours. Written public comment on the Project Plan and the IEPA’s assessment will be received for a period of 10 days following the publication of this notice, to be submitted either to the Office of the Village Clerk, Village of Schiller Park, 9526 West Irving Park Road, Schiller Park, Illinois 60176, or to Bryan Smith, Infrastructure Financial Assistance Section, Illinois Environmental Protection Agency, Bureau of Water, 1021 North Grand Avenue East, P.O. Box 19276, Springfield, Illinois 62794-9276.

This public notice is being published in accordance with the State of Illinois Rules for Public Water Supply Loans, Part 664.520.
