

## **Administrative Message**

It is an honor to present the 2016 annual report of the Schiller Park Fire Department detailing the activities and accomplishments of this premier organization. In reviewing this report it is noteworthy to realize the entire membership of this department has worked and trained continuously to provide the best service to the residents, business owners and visitors of Schiller Park. The accomplishments of our department are obtained through rigorous hard work, which confirms our ability and continued fulfillment of our mission through the diligent and dedicated actions of our workforce. Our accomplishments are supported by the elected officials, municipal management, other municipal departments and supporting agencies, as we continue to be an exemplary organization committed to continuous improvement and superior service delivery in a highly efficient and cost effective manner.

In 2016, the Fire Department responded to a total of 1,969 calls for service which is an increase of 2 % over the past 5 year average of 1,935 calls for service. Responses for emergency medical services represented 58 % of our incidents or 1,147 responses. As we entered our 90<sup>th</sup> year of service to the community, our department strived to build on our accomplishments and exemplify the Duty, Pride and Traditions that the foundation of this organization was built on. The effort and capabilities of the organization were validated by the improved ISO Class rating increase just a few years ago from a Class 5 to a Class 4, the many letters and card of thanks from our residents as well as visitors and our complete compliance of Fire Prevention Inspections of our local businesses without having to write any citations to gain compliance.

The following points highlight priorities of our Organization:

- Provide a premier level of service.
- Seek and find opportunities to better serve our citizens.
- Look for nontraditional roles for the department.
- Tailor programs for citizens based on needs.
- Invest in training opportunities.
- Be flexible, recognizing that one size does not fit all.

The department administrative staff is committed to providing leadership and direction to continue meeting the expectations of not only the Village Administration but the community as a whole. Our aim is excellence while fulfilling the priorities of the community and the department, along with a goal of exceeding expectations in our services while continuing to be committed by actively engaging with our schools, neighborhood groups, businesses and community events as our continued success relies on our strong community partnership.

## Operations Division

We are considered an “All Risk” Fire Department and the Operations Division, which consists of Fire Chief Peter Chiodo, Battalion Chiefs Charles Leiser, Michael Cesaretti and Anthony Hatcher, has the overall responsibility for providing the highest level of quality emergency services to Village of Schiller Park residents, businesses and visitors. This is accomplished by coordinating the efforts of multiple aspects of the department to ensure seamless operations in emergency activity. The Operations Division is responsible for overseeing training and evaluation of personnel, tools and equipment, apparatus, buildings and grounds, fire prevention and public education.

The Operations Division is charged with the responsibility of providing prompt and efficient emergency response to fires, hazardous conditions, rescue, illness, or any other condition where the health, safety and welfare of the public is in peril through constant review of current policy and creation of new policy when deemed necessary. Proficient and appropriate results require interaction with other Village departments, local businesses and cooperation with Federal and regional public safety agencies. This type of interface necessitates ongoing pre-incident planning and coordination, which is part of the day-to-day activities of the Operations Division.

Response By Type	Past 3 Year Average	2016
Total Incidents	1,960	1,969
Fire/ Non-EMS Incidents	838	822
EMS Incidents	1,122	1,147

Response Data	2016
Total Number of Incidents	1,969
Average Number of incidents Per Day	6
Average Emergency Turnout Time	1:08
Average Non-Emergency Turnout Time	1:35
Average Emergency Response Time	3:53
Average Non-Emergency Response Time.	5:26
Average Total Incident Time	29:30

“Our Goal is to exceed expectations and provide citizens with the best service possible”

**Turnout Time:** The time between the end of the initial dispatch of assigned apparatus to the report of the first piece of apparatus being en-route.

**Response Time:** The time between the report of the first assigned apparatus being en-route and the first responding apparatus on scene.

**Total Incident Time:** the time between the end of the initial dispatch of assigned apparatus to the release of the final on scene unit for mitigation of the response.

## **Fire Prevention / Code Enforcement**

The Fire Prevention Bureau (FPB) under the direction of Battalion Chief Anthony Hatcher, annually conducts a commercial fire prevention inspection program. Through inspection, plan review and code enforcement the goals of the program are to maintain a safe living, shopping, and work environment for the residents, employees and patrons of the Village. The program also provides for the collection of current building and property information to support efficient and safe emergency response and timely interaction with building occupants and or owners during emergency operations.

The expertise necessary to support these goals are maintained with membership in the National Fire Protection Association (NFPA) the Illinois Fire Safety Alliance (IFSA) and the Illinois Fire Inspectors Association (IFIA). The fire prevention inspectors are certified in fire inspection procedures. They further receive training through seminars and on the job training annually.

The Fire Prevention Bureau works closely with the Department of Community Development to ensure that proper construction practices are enforced in all new residential and commercial structures. The Bureau also investigates fire and building code violations along with the Building, Electrical, Mechanical, and Health Inspectors.

In 2016 the Fire Prevention Bureau obtained information from commercial businesses throughout the village and integrated that information into the GIS mapping program. Having this information in the program allows the fire department to access the information through a mobile application on the in-vehicle computers.

Activity	2016
New Inspections	373
Re-Inspections	678
Plan Reviews	20
Acceptance Tests	6

## Public Education

The Bureau of Public Education headed by Firefighter/Paramedic's Blaine Schneider and Jessica Warden, strives to provide a full spectrum of Public Education programs tailored to meet the needs of the Village through the dedicated participation of the members our department.

Public Education and interaction with our citizens provides an opportunity to stress the importance of fire and life safety. These contacts allow personnel an opportunity to explain the many programs offered by the Department and to provide familiarity with our Emergency Operations.

The Schiller Park Fire Department works with community groups, schools, businesses and other Village departments. By offering quality programs, we will provide increased knowledge of fire prevention and life safety issues in an effort to reduce the loss of life, injury, and destruction of property.

In 2015 the Bureau of Public Education became a more structured bureau with new dedicated members taking an active role, new policies and up to date record keeping. In May of 2015, a Fee Structure was implemented in an effort to offset the cost of teaching the CPR/AED lifesaving courses. Child Safety Seat Inspection and installation is still a free service provided by the department.

The Schiller Park Fire Department Programs:

- CPR / AED Training
- School Fire Prevention Programs
- Fire Extinguisher Training
- Station Tours
- Block Party Appearances
- Child Safety Seat Inspections and Installations

Activity	2016
School Programs	2
Total Participants Taught	2,234
Juvenile Interventions	0
Station Tours	3
Apparatus Requests	54
Block Parties/ Picnics/Bonfires	3
Misc. Public Education	8
Misc. Community/Organization Visits	21
CPR / AED Classes	17
Healthcare Provider Courses	5
Heart Saver/AED Courses	12
Total Participants Taught	43
Child Safety Seat Inspections	5

## Emergency Medical Services (EMS)

In 2016 the Schiller Park fire Department responded to 1,394 Emergency Medical Service and Rescue incidents. During those incidents 1200 patients were attended to, with 906 of them being transported to the hospital. Additionally, service was provided 48 times for invalid or occupant assists.

All our Firefighters and five (5) of our Officers are licensed by the Illinois Department of Public Health as EMT-Paramedics, providing emergency medical care to the citizens and visitors of the Village of Schiller Park. The Department is Part of the Loyola University Medical Center Emergency Medical Services System. The system ensures that the Paramedics are properly trained through in-house continuing education conducted by system nurses and doctors. The system also oversees that victims of injury and illness are assessed, treated and transported to local Emergency Room Departments in a timely manner through constant review and updated Standard Operating Procedures (SOP).

The focus of Emergency Medical Services is to provide and promote the continued development of an optimal system of emergency medical and trauma care, which provides the best possible patient outcome and to continually improve public health in our community.

The Bureau of Emergency Medical Services under the direction of Lieutenant Gregory Swiontek continues to work within its operating budget to provide equipment for the Paramedics to use to provide the best possible care to our residents and visitors. 2016 saw the implantation of new child safety restraint system. This system provides the paramedics the ability to properly secure any child no matter their size or weight to the cot in the ambulance for safe transport to the Emergency Department.

EMS Activity	3 Year Average	2016
EMS Responses	1,358	1,147
Patients	N/A *	1,200
ALS Transports	585	608
BLS Transports	320	298
Non-Transport	281	294
Average Responses Per Day	3.72	4

Nature of Call	3 Year Average	2016
Cardiac	89	91
Medical	674	770
Trauma	365	344

“Our Emergency Medical Services System is a Comprehensive network of personnel, equipment and resources with a purpose of delivering aid and emergency medical care to the community”

\* Data was not available from previous years

## Support Services

The Support Services Division of the Fire Department under the direction of Lieutenant Budnik, is charged with the oversight for maintenance and repair of all vehicles, facilities, equipment and supplies; These Activities include:

- The procurement of equipment and supplies to support the department operations.
- Work with the Village Mechanic to coordinate the vehicle fleet maintenance consisting of 10 emergency response specialized apparatus and support vehicles.
- Coordination of maintenance and repair of Fire Department facilities.
- Maintenance of records, reports and inventories to support Operations.

Systematic preventative maintenance along with continual research and evaluation supports our operational readiness while balancing the challenges of contemporary technology, the special needs of the fire service and the fiscal obligations of our organization.

Support Services work diligently throughout the year to computerize the weekly and monthly vehicle maintenance checks to reduce the need for endless reams of paper and storage space for these records. This has also streamlined the checks in reducing the time spent on maintenance checks

Pump Testing on Tower 5

## Fires Response Apparatus

Battalion 5

Engine 5 2007 Pierce Impel 1500GPM Pumper

Tower Ladder 5  
2000 Pierce Saber 100' 1500GPM Tower Ladder

Ambulance 5

## Special Operations

The Schiller Park Fire Departments Special Operations under the Direction of Lieutenant Jeffrey Leiser ensures that our Firefighters maintain a diverse knowledge of specialized training in Hazardous Materials, Technical Rescue and Fire Investigations. Some of our members have technical training in these areas while the others are all trained to the Operational Level. The Department is a member of Mutual Aide Box Alarm System (MABAS) Division 20. Division 20 is made up of 18 local communities in which we all provide additional manpower at larger incidents. These specialized teams each have their own apparatus and equipment to assist at any incident when needed.

- **Hazardous Materials Team** – specializes in spills, leaks, fires and other unusual incidents involving explosives, corrosives, fuels, and other compounds and chemicals.
- **Technical Rescue Team** – responds to rescue incidents where people are trapped in confined spaces, below grade, high angle rescues, collapsed structures and difficult above grade situations.
- **Fire Investigation Team** – determines fire cause and origin, whether accidental or incendiary, in order to lesson injuries and death to civilians and firefighters and to reduce property loss.

The Bureau of Special Operations also sees that our personnel are trained in the use and proper operation of the Specialized Equipment available to us through the Division and MABAS. The Following is a list of the Specialized Equipment;

- **Haz-Mat 20** – responds with the Hazardous Materials Team
- **FIU 20** – responds with the Fire Investigation Team
- **Technical Rescue 20** – responds with the Technical rescue Team
- **Decon 20** – responds with the Hazardous Materials Team and for any other incident where decontamination of first responders or civilians is needed.
- **Air 20** – responds to any incident where members may be on compressed air for long periods of time or requires filling of used SCBA air cylinders
- **ATV 20** – can respond to incidents were access may be hindered due to terrain.
- **Light towers** – can respond to night time incidents or prolonged incidents that may require additional lighting.

In 2016 the Schiller Park Fire Department provided Division 20 specialty teams with the following personnel:

Hazard Materials Team; B/C Leiser, Lt. Swiontek, FFPM Chung, FFPM Dehmlow

Fire Investigation Team; Lt. Leiser, FFPM Bubis, FFPM Bertoncini

Technical Rescue Team; FFPM Velasco, FFPM Santiago

## Affiliate and Support Agencies

### Northeastern Illinois Public Safety Training Academy (NIPSTA)

The Northeastern Illinois Public Safety Training Academy (NIPSTA) is an Intergovernmental agency with its campus located in Glenview, comprised of 28 member agencies including; municipalities, fire protection districts, and other organizations located in the Chicago metropolitan area that have combined energies and resources to create a regional public safety training facility. The mission of NIPSTA is to develop and provide high quality, cost-efficient educational programs that address the training requirements of fire, police, EMS, public works, Hazardous materials, and disaster response personnel.

Even though the Village of Schiller Park is not a member of NIPSTA, we still are entitled to the quality training opportunities in which they offer. The 20-acre campus offered many of our personnel with training opportunities that we as a department could not provide such as live fire burns, rail car training, and electrical emergencies.

### Mutual Aid Box Alarm System (MABAS)

The Mutual Aid Box Alarm System (MABAS) was established to provide a swift, standardized and effective method of mutual aid assistance for extra alarm fires and mass casualty incidents. Today, the MABAS organization includes nearly every fire department in Illinois, as well as many areas in Indiana, Iowa, and Wisconsin.

Our Division MABAS Division 20 includes 18 communities bounded by Rosemont on the north, Broadview on the south,

Bensenville on the west and Elmwood Park on the east. Our Division provides service from 23 stations with over 500 personnel trained not only in firefighting and EMS but many of the Specialty Disciplines such as Haz-Mat, Technical Rescue, Fire Investigations and Swift Water Rescue. Because of our dedication to training as division teams, Illinois MABAS has chosen our Hazardous Materials Team and Technical Rescue Teams to be involved in many local and state wide multi-day drills our Division was also selected to respond to Hurricane Katrina for a two week deployment.

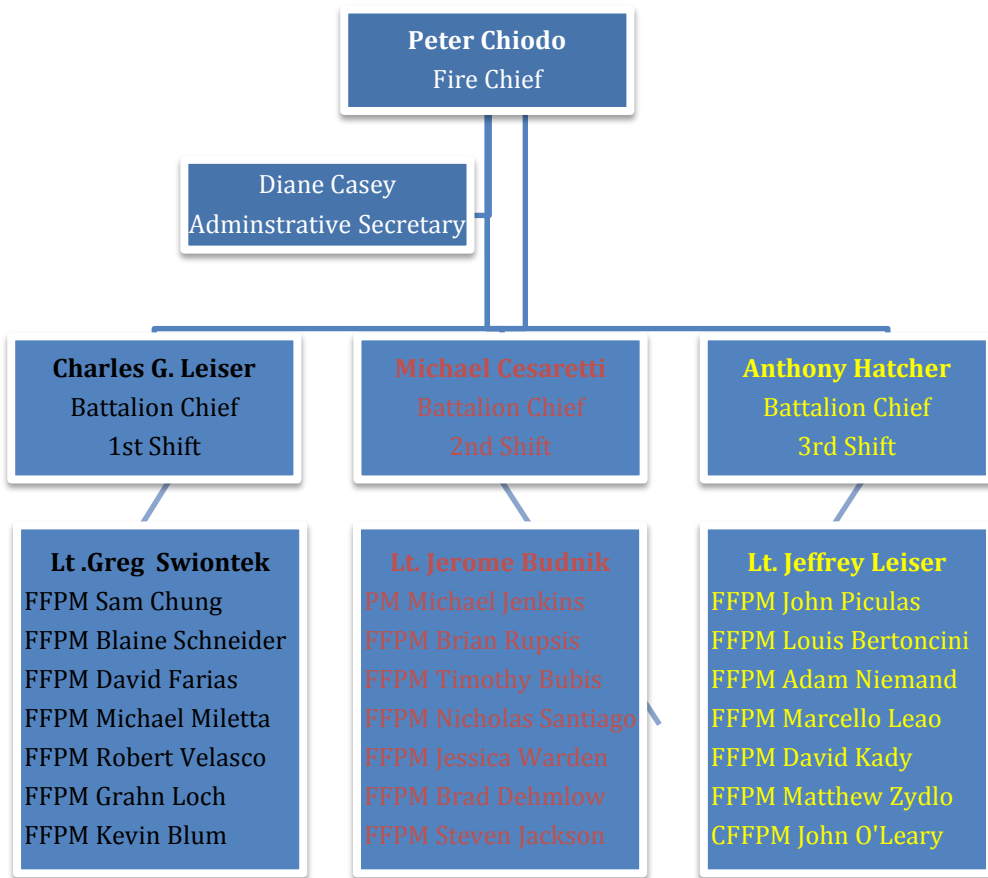

### Loyola University Medical Center

Loyola University Medical Center has been an Emergency Medical Services (EMS) resource hospital for 35 yrs. representing 31 communities and 10 private EMS providers. The Loyola University Medical Center EMS program has been dedicated to providing high quality pre-hospital education, including Emergency Medical Technician (EMT) and Emergency Medical Technician Paramedic (EMT-P) training and continuing education or the department Paramedics.

Loyola University Medical Center is one of 4 EMS System in Region 8 covering a large Geographic area of the western suburbs. As a region, in coordination with the Illinois Department of Public Health, multiple roles are served, including authorship of Standard Operating Procedures, Standards and Practices and Disaster Management.

# Initial Response District

The Schiller Park Fire Department provides service to the Village through two stations. Station 5 is manned twenty-four hours a day while station 6 is a facility that houses reserve vehicles and manned only in emergency situations.

## Station 5

9526 W. Irving Park Rd.  
(Headquarters) built in 1967

## Station 6

4499 25<sup>th</sup> Ave. Built in 1968

Station 5 is the main station centrally located within the village providing optimal response times throughout the community, while station 6 allows coverage to the west side of the village when response times may be extended due to emergencies, i.e weather or disaster.

## Response Per Censes Track

### Censes Track 7707.00 / Box 100N

Fire Responses 220  
EMS Responses 508

### Censes Track 8118.00 / Box100S

Fire Responses 283  
EMS Responses 568

The role of a fire station has changed significantly over the past 50 years. Station 5 is utilized for housing our first response apparatus, a shift of up to ten personnel a day, a training classroom facility and administrative offices, putting an increased demand on the facilities mechanical systems and space.

## Emergency Management

The Division of Emergency management lead by Battalion Charles Chief Leiser is responsible for the coordination of all village departments and the allocations of resources during large emergencies. The Division of Emergency Management is also responsible for the constant review and update of the Village Disaster Plan, creation of Incident Action Plans (IAP) for Planned village events Pharmaceutical distribution, and the set up and fluid operation of the Emergency Operations Center (EOC). Emergencies may be natural, such as flooding, tornados, or blizzards or man-made such as railroad derailments, chemical spills, large fire or civil unrest.

The Village of Schiller Park has in the past been subjected to flooding, from a few flooded streets to major flooding causing damage to several residences and businesses. The Village has also seen its share of severe weather in the form of heavy snows, winds and rains. In 2015 the emergency management division has installed a real time weather program in the fire department and the Dispatch Center to track storms and warnings.

The Fire Department has partnered with the Cook County Department of Homeland Security to provide equipment from portable radios to heavy-duty 6 wheel trucks and large emergency generators to large portable HVAC units. We have also trained personnel in the CCDHS Web-EOC which is a web based program that give the village instant access to county resources, notice of road closures, and on-line IAP's to name a few.

This coming year will provide the Emergency Management Division a challenge in finding funds through Federal Grants to help update and supply the Villages Emergency Operations Center to improve its ease of operation by all personnel that may need to work in the center.

## SPECIAL THANKS

Sunrise Printing for Printing and Formatting Assistance

Special thank you to all the Village Department Heads and employees that have supported and assisted this organization. The Fire Department believes that we are all a part of the same team striving to achieve the same goal, making the Village of Schiller Park a safe and enjoyable place to live and work.

Honorable Mayor Barbara Piltaver  
Village of Schiller Park Board of Trustees  
Residents and Businesses

On behalf of the Schiller Park Fire Department, I present to you the 2016 Annual Report of the Schiller Park Fire Department. Here work some of the most dedicated men and women in the fire service that I am proud to call co-workers. Together they have provided valuable service to the community through prevention, education, suppression and emergency medical services. Together we have all tried to make the living and working conditions for everyone in Schiller Park a better place to live and work.

The Schiller Park Fire Department entered its 91<sup>st</sup> year in 2016. The fire department has changed and evolved over time. Whereas a fire department was traditionally called upon to put out fires, today our fire department embraces many roles—fire inspections, public education and relations, hazardous materials, fire investigations, technical rescue, emergency management and paramedic services. All these roles are done by a staff of 28 full-time firefighter/paramedics who are all trained and certified to specific levels and maintain that proficiency.

We strive to build on our accomplishments and exemplify the honor, pride and history which are the foundation of our organization. We can only do this with the support from the elected officials and those who live and work in Schiller Park. The department is broken down into several separate divisions each with its own responsibilities. This delegation of work allows us to meet our objectives and goals. It also allows us to meet the next set of challenges and demands.

The fire department's backbone is not only the personnel who work shifts, but all of our support and clerical staff here in the Village. The 9-1-1 dispatchers, Police Officers, and Public Works employees all help in our mission. It is a cooperative and collective effort to provide some of the best service to the community.

I am very proud of our accomplishments which I share with you all in this report. It is sometimes hard to summarize all the time and dedication that each member spends in "making things happen". I know that we each have chosen this as our profession and proudly wear our uniforms and our patch identifying us as The Schiller Park Fire Department. I am most grateful and appreciative to all the members of this department for their support and loyalty, without them we would never be at the forefront of the fire service.

Peter Chiodo  
Fire Chief

## **We Are Our Accomplishments**

The Schiller park Fire Department is a “full Service agency” that is committed to providing the best Emergency Services to the community. The department provides a full spectrum of contemporary services for the residents, businesses and visitors of Schiller Park. These services include:

Fire Suppression	Plan Review	Life Safety Education
Paramedic Services	Rescue Services	Fire Investigations
Code Enforcement	Hazardous Materials Response	Disaster Management

In providing the above-mentioned Services, The Schiller Park Fire Department continuously strives to be the best. We feel that we accomplished that by ongoing training, community participation/education and pride and ownership taken in our stations and equipment. Listed below are many of our 2016 accomplishments that we feel puts us above the rest.

### **EMS ACCOMPLISHMENTS**

- Purchased new equipment for our ambulances such as;
  - New Pulse Ox Sensors (Oxygen Levels)
  - New SPCO2 Sensors (CO exposures)
  - New Ambulance Child Restraint System (Safer way for transporting pediatric patients)
- Successfully transferred from Northwest Community Hospital EMS system to Loyola EMS system.
- Trained and Certified all EMT-P's in ACLS ( Advanced Cardiac Life Support.)
- Purchased and placed in service new Mass Casualty bags for first responding vehicles to Mass Casualty Incidents.
- Sent two FF/PM's through CPR Instructor Class.

### **FIRE PREVENTION**

- Pre-plan data entered into GIS System.
- FFPM Leao completed OSFM Inspector II and Public fire & Life Safety educator.
- All applicable elevators and elevator cars have been properly labeled to identify they have appropriate dimensions for EMS stretchers.

### **TRAINING ACCOMPLISHMENTS**

- Received 25 New OSFM Certificates.
- Implemented Target Solutions (new training delivery and tracking program.)
- Three FF/PM's Completed water rescue training and are now certified in water rescue incidents.
- Two Members attended FDIC (Fire Department Instructors Conference) in Indianapolis for hands on training and multiple seminars.

### **SPECIAL OPERATIONS**

- FFPM Dehmlow completed Railcar Specialist Classes
- FFPM Lou Bertoncini obtained his fire investigator certification from the OSFM and became a member of the division 20 fire investigation team
- Lt. Jeffrey Leiser recertified as a Fire Investigator with the OSFM

## Personnel

As indicated in the chart below our department is relatively young with an average of just over 11 years of service associated with an average age of 37.25 due to an increase of retirements and position openings over the last few years. This creates a challenge for the Officers and senior blue shirts to properly train and mold our newer personnel into outstanding Firefighter/Paramedics. However, the proficient staff of the Schiller Park Fire Department is at all times ready to meet the challenge of the varied tasks associated with this profession.

Years of Service	# of Members
1 to 5	10
6 to 10	6
11 to 15	5
16 to 20	3
21 to 25	1
26 to 30	2
Over 30	1
Average Years	11.4

## Retirements

PM Michael Jenkins, August 14<sup>th</sup>

## New Hires

FF/PM John O'Leary, November 1<sup>st</sup>

## Personnel/Risk Management

The Schiller Park Fire Department is committed to keeping our personnel safe. We strive on training our personnel to work safe through hands on classroom training. Through the support of the Mayor and Village Board we are able to provide our personnel with state of the art equipment that will lessen the possibility of injury. We also put our personnel through bi-annual physicals and provide time for weight and cardio training while on shift. Each member of our department buys into the fact that it is better to work smarter not harder which in turn relates to less possibility of injury.

## Training

The Training Division is headed by Battalion Chief Cesaretti, who ensures the Schiller Park's Fire Department's training mission is followed to ensure all personnel are able to safely and effectively perform the critical tasks required of their position and rank. To this end the annual training program is designed to meet professional standards, satisfy state and federal mandates, and provide a broad range of education and skill development. Based upon their essential job functions, each employee achieves specific training objectives, and obtains required levels of certification through the Illinois Office of the State Fire Marshal (OSFM). Schiller Park Fire Department achieved planned training objectives for the year; and members significantly enhanced their firefighting, rescue, and emergency medical service capabilities.

One new member joined the ranks of the Schiller Park Fire Department in 2016. After attending the Northeast Illinois Public Safety (NIPSTA) Fire Academy, the probationary firefighter completed post-academy training with the department and has been assigned to fire companies where their careers take root. While new personnel have presented some expected challenges, it also has invigorated our officers and veterans to share their knowledge and prepare the recruit for his new role as firefighter. Over the next three years they must obtain three additional OSFM certifications and complete several Job Performance Requirements (JPR's), demonstrating successful achievement of department standards. During this phase of their career they will also become certified fire apparatus engineers and Fire Prevention Inspectors. As their careers progress they will develop knowledge, teamwork, continuity and mastery of individual skills.

Learning is supported each month through scheduled daily training, which provides specific training objectives, promoting consistency and performance among each shift and station. The training program addresses basic and advanced firefighting skills, emergency medical services, emergency vehicle operations, fire prevention, specialized disciplines, and officer development. Members are encouraged to expand their capabilities in specific areas of expertise, such as: hazardous materials mitigation, fire investigation, and technical rescue, which entail further education and certification. Personnel seeking promotion attend fire officer certification courses to prepare them for supervisory positions.

In 2016, the Illinois OSFM awarded 25 certifications to Schiller Park Fire Department personnel with completion of various firefighter and fire officer courses. Members averaged well beyond 225 hours of training for the year on a wide range of subjects through both in house and outside training. Company Officers, Shift Instructors and members of the Training Division contributed significantly to the successful administration and implementation of the Department's training program.

<b>Training Hours By Activity</b>	<b>3 Year Average</b>	<b>2016</b>
Number of Sworn Members	28	28
