- Rose Street – River Street to dead end
- Winona Avenue – Forster Avenue to River Road
- Harold Avenue – Florence Avenue to Michigan
- Linn Avenue- Harold Avenue to Forster Avenue
- Florence Avenue - Harold to Forster Avenue

Dear Resident and Businesses,

The Village has hired a Contractor to install new water mains and fire hydrants in this area along with replacement of water service lines.

As part of this project, the new water main will be installed in the parkway on residential streets and within the roadway on industrial streets. The project will begin this year and will be completed in summer 2025.

You may notice crews on your street during the week of July 29, 2024. These crews will be performing small excavations at various locations in order to better locate existing utilities in the area in advance of the installation of the water main. This work should not affect access to your property.

Additional notices will be distributed in advance of the actual water main installation work beginning on your street. Please contact the Project Engineer at (708) 514-8802 with any concerns or questions.

Thank you,

Village of Schiller Park
