## 25<sup>th</sup> Avenue Resurfacing Improvements

Dear Resident,

The Village has entered into a contract with Builders Asphalt to resurface 25<sup>th</sup> Avenue from Waveland Avenue to Lawrence Avenue. The Village has partnered with Illinois Department of Transportation (IDOT) and Federal Government for funding 80% of the project. The remaining will be funded by the Village.

The project will include the removal and replacement of select portions of curb and gutter and associated sidewalk and driveways located behind the curb and gutter that is being replaced. The project will primarily involve the removal of the existing concrete pavement surface, patching of the underlying pavement, and the installation of two new layers of asphalt.

The first phase of work has begun this week. This first phase will include the removal and patching of the underlying pavement, followed by the removal and replacement of concrete sidewalks, driveways, and curb. Completion of this project is expected by late November. As in all construction, we expect that you will experience some inconvenience.

### Driveway Access

Tomorrow, **October 8, 2024** the pavement in front of your driveway will undergo removal and replacement with a 10" asphalt patch. During the course of this work you will be unable to access your driveway. This work is set to occur between **7:00 AM and 5:00 PM**. As a courtesy reminder, the Contractor will knock on your door one time the morning the removal process begins.

### Parking

During this work, parking will be prohibited where the work is taking place. We are asking residents to avoid street parking on the East side of Ruby Street/25<sup>th</sup> Avenue between 7:00 AM and 7:00 PM, Monday through Friday, to allow for a safer work environment for the Contractor and to assist roadway traffic flow. Daytime street parking is available on Montrose, Emerson, and Atlantic Avenues.

Please contact the Project Engineer at (708) 240-1235 with any concerns or questions you may have. In addition, updates on the project will be available on the "Construction Updates" section of the Village website.

Sincerely,

Village of Schiller Park
