Re: Kelvin Lane Sewer Improvements Project

Dear Kelvin Lane/Wesley Terrace Resident,

The Village has entered into a contract with John Neri Construction to install a new storm sewer within Kelvin Lane and then resurface Kelvin Lane.

Tomorrow (10/24/24) the Contractor will be saw cutting of the pavement and curb and gutter in advance of the storm sewer work. This work may affect access to certain off street parking areas and **all vehicles should be moved by 7am. Access will be returned by the end of the day.**

Weather pending, the Contractor will begin on Monday October 28th with the installation of the storm sewer followed up by concrete work and resurfacing of the roadway. This work is expected to take approximately 1-month to complete.

**Parking in the off-street parking spots along the north side and south side of Kelvin Lane will not be allowed from 7am to 5pm during this period and residents are encouraged to use the parking lots at the west end of Kelvin Lane during this time of parking interruption.**

**Barricades, tape, and signage will be placed in the areas where parking is to be prohibited and we ask all residents not to park in these areas.**

Emergency vehicles (Police & Fire), school buses, garbage trucks, and street sweepers will continue to have access.

We appreciate your patience during the construction of these improvements. Please contact the Project Engineer, Tanner Jach at 708-384-4675 or the Public Works Director, Patrick Hastings at 847-671-8506 with any concerns or questions you may have. In addition, updates on the project will be available on the "Construction Updates" section of the Village website.

Thank You,

Village of Schiller Park
